PROFESSIONAL EXPERIENCE

Data Science Intern at CHRP Technologies | [LOC](#)

Jan 25 - Present

Skills: Python, OpenCV, JSON, Matplotlib, Git, GitHub, API Documentation, Computer Vision, SAM, KNN, Data Annotation

Contributed to the **optimization** of CHRP Technologies' **SamUI application**, enhancing annotation workflows using the **Segment Anything Model (SAM)**. Implemented the **Ramer-Douglas-Peucker algorithm** for polygon simplification and improved **mask retrieval**. Added features like **image navigation** and **undo correction**, and built a **color prediction module** using **KNN**.

WordPress and Website Developer at ImBoard Nashik | [Link](#) | [LOR](#)

March 25 - Present

Skills: WordPress, MERN, JWT, Bcrypt, Local Storage, SweetAlert2, react-qr-code, Hosting (Hostinger)

Developed key pages (Landing, About Us, Contact Us) for a responsive WordPress site and built a MERN stack **admin panel** with Node.js, Express.js, and MongoDB for event management. Implemented **JWT** and **Bcrypt** for secure authentication, managing data with **CORS** and **local storage**. The admin panel supports **participant registration**, event management, and **Excel report generation**. Created a user registration system with **dynamic payment links**, QR codes, and **email confirmations** for onsite and online payments.

Web Developer at Maharashtra Farms (Freelance)

Nov 24- Present

Skills: MERN, JWT, js-cookie, Mongoose, Multer, ImageKit, Helmet, Swiper.js, Git, GitHub, Rest APIs

Developed a full-stack web application for Maharashtra Farms, a vegetable **subscription platform**, with an **admin panel** for **subscription management** and an **order summary dashboard**. Implemented **OTP-based login** and **JWT authentication** for secure access, with Helmet and CORS for **API security**. Integrated Multer and ImageKit for **image uploads**.

Mern Stack Developer at PaanPhool (Freelance)

Jan 25 - Present

Skills: React.js, Node.js, MongoDB, Bootstrap, NodeMailer, REST APIs, GitHub, Framer Motion

Contributed to the development of **PaanPhool's** landing page and website, optimizing user experience with the **MERN** stack. Implemented a bulk email system with **Node.js** and **NodeMailer** for client communication. Collaborated on building a dynamic, responsive platform for the plant rental startup and managed project versions using **Git** and **GitHub**.

HACKATHON

MET HackFusion-25

April 25

Developed a prototype for an **AI-powered dynamic traffic light system** using **YOLO** for real-time **vehicle** and **emergency vehicle detection**. Enabled automated **traffic signal adjustments** to reduce **congestion** and prioritize **ambulances**, improving **emergency response times**. Collaborated with a team to design and implement smart city IoT solutions.

COMMUNITIES

Open-Source Lead GDGC MET

Sept 24 - Present

Lead and organized **open-source events at MET Campus under the Google Developers Club**. Spearheaded the **Hacktoberfest** event across Nashik in collaboration with 5-6 colleges, attracting around 200 attendees. Delivered a session on **Git, GitHub, and version control using Git**.

EDUCATION

Bachelor of Engineering - MET Institute of Engineering, Nashik | Current CGPA: -8.65

2022 - 2026
